Career Objective

Enthusiastic and dedicated Computer Science Engineering student with strong knowledge in C, C++, Python, and Web Development. Passionate about building efficient solutions, learning advanced technologies, and seeking opportunities to contribute to impactful projects and internships.

Technical Skills

Programming Languages

- C
- C++

Web Development

- HTML, CSS, JavaScript
- Responsive frontend development
- Basic backend understanding (lot)

Developer Tools

- VS Code, IntelliJ IDEA
 - Git & GitHub
 - Linux basics
-

Projects

**Bachelor of Technology in
Computer Science Engineering**
SRM University AP
2024 – Present

Projects

1. **Mini Social Network (C)**
Developed a Facebook like custom using the C programming language.
Features: user registration with validation, login, friend requests, accepting/rejecting requests, view friends, post messages.
Using file-based storage
 2. **Personal Portfolio Website**
Built using HTML, CSS, JavaScript.
Includes sections for projects, skills, education, and contact.
 3. **Python Mini Utilities**
Programs like calculator, pattern generator, string utilities, and basic data processing scripts
-

Strengths

- Strong problem-solving skills
- Good understanding data structures
- Quick learner and adaptive
- Consistent and disciplined
- Interest in backend and algorithmic problem solving
